Pinter was born in 1930 in Hackney, East London. His parents were middle class and Jewish. His father was a tailor and his mother was a housewife.

In 1940, Pinter and his family evacuated from their home and were sent to Cornwall and Reading because of The Blitz. This left Pinter profound memories of loneliness, bewilderment, separation and loss (themes of all his works).

A major influence on Pinter was his English teacher Joseph Brearly, who said that "Pinter shone at English, wrote for the school magazine and discovered a gift for acting."

He registered as a conscientious objector and refused to serve in the army. He was brought to trial twice.

From 1950 to 1952 he toured Ireland playing over a dozen roles. After this he began to act in big productions & worked for The Donald Wolfitt company and the theatre in Hammersmith.

Pinter strongly opposed the Gulf War in 1991, the NATO bombing campaign, the war in Afghanistan and the 2003 invasion of Iraq. He also opposed to Tony Blair, and George Bush in public.

Pinter objected the cold war but he wasn't a pacifist. He said that if he had been old enough he would of fought the Nazis.

Pinter concentrated in writing essays and poetry based on his views and his opinions. This led to a lot of speculation but finally won him a prize in literature.

He was content with his marriage with his six stepchildren and seventeen step-grand children.

After Pinter's divorce with Merchant had become official, he married Fraser in 1980. Merchant died of alcoholism and Pinter became disengaged from his son Daniel after that.

To supplement his income, Pinter worked as a waiter, postman, butcher & snow-cleaner.

He was married to an actress called Vivienne Merchant, who appeared in most of Pinter's plays such as "The Homecoming."

For seven years, Pinter had an affair with a TV presenter, Joan Bakewell which later on influenced his play Betrayal. Emma & Jerry, the main characters too had an affair lasting five years.

He also had an affair with an American socialite whom he called "Cleopatra". Lastly he had a long lasting affair with Antonia Fraser.
